DETAILED ACTION

Response to Arguments

In the interview of August 21, 2002 Burbank '429 was discussed as a possible reference applicable to the proposed amendments presented. Mr. Heslin maintained that the Burbank device did not disclose electrodes. Having reviewed the Burbank reference in further detail, Examiner has found a disclosure of electrodes. Therefore, the claims are rejected in view of Burbank as indicated below.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-66 are rejected under 35 U.S.C. 102(e) as being anticipated by Burbank et al. '429. In figure 11, col. 9 lines 48-50 and col. 11 line 66 – col. 7 line 1, Burbank discloses a probe for deploying electrode arrays. As illustrated below, the probe comprises a shaft, a first array of electrode having a concave face and a second

array of electrodes also having a concave face, wherein the concave face of the first and second arrays face each other when the arrays are deployed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3739

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
